Chart:

The chart below shows the various sources in which the word “Theresa May” appeared. It also shows the time period in which it occurred.

My Reason:

Theresa May got most hits in the period 2015-17 because that is when she became the prime minister of the United Kingdom. She succeeded David Cameron after the EU membership referendum in which 52% of the voters voted in favor of leaving the EU. She had a major part in Brexit negotiation.
